

Unleashing Your Leadership Potential:

An action research approach to professional learning for Band B Leaders.

Facilitated *“by the profession for the profession”*.

Educating in the 21st C requires a new leadership in our schools. This new leadership goes well beyond the five AITSL professional practices, although these remain important foundations.

The new leadership construct has evolved out of consultations undertaken by the Australian Secondary Principals' Association (ASPA) with the nation's best secondary educational leaders over a 3 year period.

Our proposition: Appropriate and timely professional development facilitated “by the profession for the profession” will guarantee that the right person is in the right place at the right time, and with the right capacity to play a key leadership role within an autonomous school community.
