**RETHINK** before you buy  
**RETHINK** before you consume  
**RETHINK** before you dispose

Priorities for focus in 2019	Purpose (Why)	What/When	Agreed Strategies/Actions
<b>Re-think before you package</b> Shopping bags Lunch wraps Straws Non-reusable plastic bottles Plastic plates and cutlery	<p>Not biodegradable as trash and has a negative effect on the environment and animals</p> <p>Manufacturing of these materials causes pollution</p> <p>Negatively uses non-renewable resources when renewable alternatives are more cost effective and readily available. (bioplastic)</p> <p>Helps boost the economy at a grass-roots level.</p> <p>Alternatives are more beneficial for the future; health, environment, a better world.</p>	<p>Research and evidence of these effects need to be displayed/ readily available for students to be influenced.</p> <p>Fun interactive games/quiz/displays that educate students. (Sculpture that is made of trash and is interactive for students.) would allow students to make a pledge to being waste free.</p> <p>Change the canteen to an eco-friendlier company or to a grass-roots alternative.</p> <p>Health warning (similar to cigarette warnings) taped to bins or behind bins for students to see the negative effects of using non-renewable packaging (plastic)</p>	<p>Make Display: Enlist the help of our community to collect trash materials for the art/display. Enlist the help of graphic design students to create the "health warnings"</p> <p>Canteen: Petitioning for action against the canteen. Enlist the help of the PAC to support an alternative canteen system.</p>
