

Our Context

United Nations
peace school

More Than
80 Cultures
Represented

Very
diverse
school
community

Our Opportunity

to create a
powerful
student voice

To connect students of
**different cultures &
different experiences**

To build
positive relationships
and meaningful
friendships

We Decided

To create a student led
peer mentoring program

With
students
supporting
students

And to build
stronger relationships
between teachers
and students

Goals & Achievements

Connected with
60 students in our
New Arrival Program

Prototyped ideas
and tested our skills

Invited more students to be
peer mentors and are
working towards a
self-governing model

Our Mission

is to build a **student-led program** that cultivates the idea of **strength in diversity**. At Thebarton we have a **community of global citizens**, and we hope to **create a model for how to unite students in a truly inclusive environment**. In this way we hope to have **an impact far beyond our own school borders**.
