Vision

Innovation
History

Vision

A community of passionate people who positively influence their world.

The background features a stylized illustration of a school building with a grid of windows. A dark, semi-transparent horizontal band is overlaid across the middle of the image. The title 'Curriculum Innovation' is centered in white text within this band. A mouse cursor is visible in the lower right area of the dark band. There are also some light-colored geometric shapes at the bottom of the slide.

We are striving for

and supporting deep
learning and transference

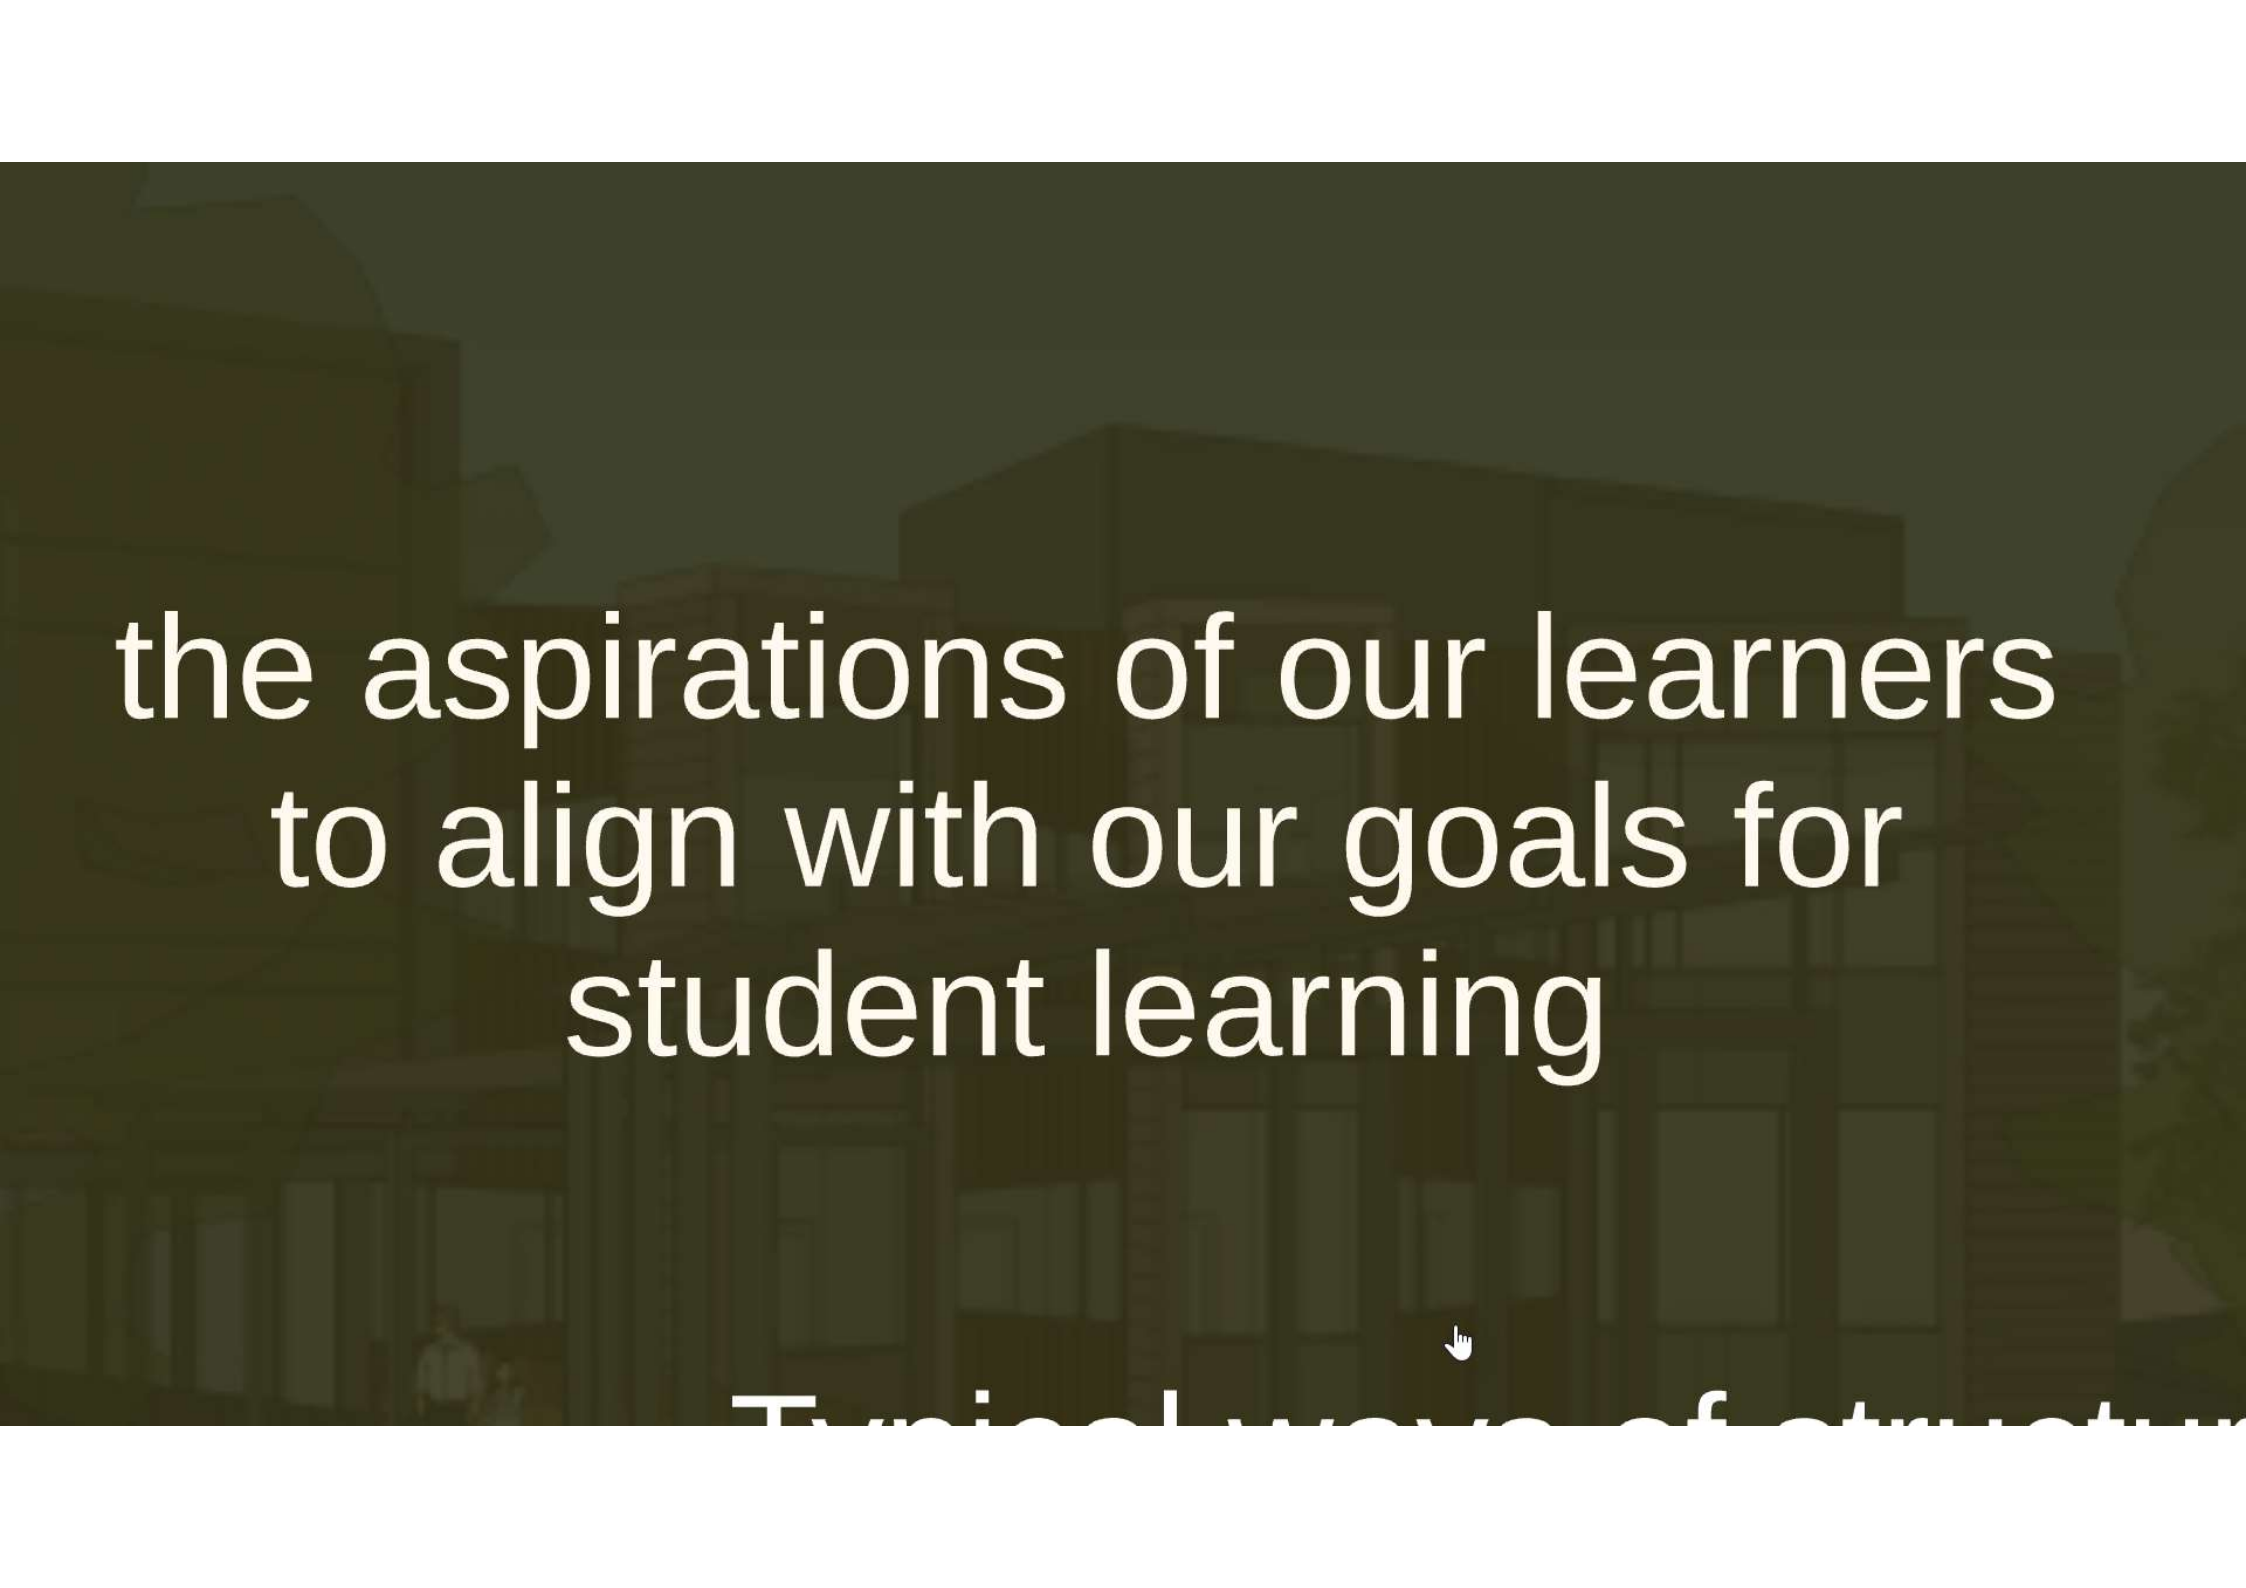

students to develop from
novice to proficient or expert
in our specialisations

The background of the slide features a photograph of a school building. On the left side, there is a large, dark sign with the words "strong foundations in English and Mathematics" written in white. The rest of the image shows the school's facade, including windows and architectural details, with a semi-transparent olive-green overlay on the left side.

strong foundations in
English and Mathematics

retention of HB students,
increasing students
moving into the HB
Year 7 - 9

the aspirations of our learners
to align with our goals for
student learning

Typical types of structure

interdisciplinary approaches

Traditional Learning

we need to
know

Memorize it

Problem
assigned to
illustrate how
to use it

Problem-Based Learning

Problem
Assigned

Identify
what we
need to know

Learn & apply
to solve the
problem

extra time for
senior years classes

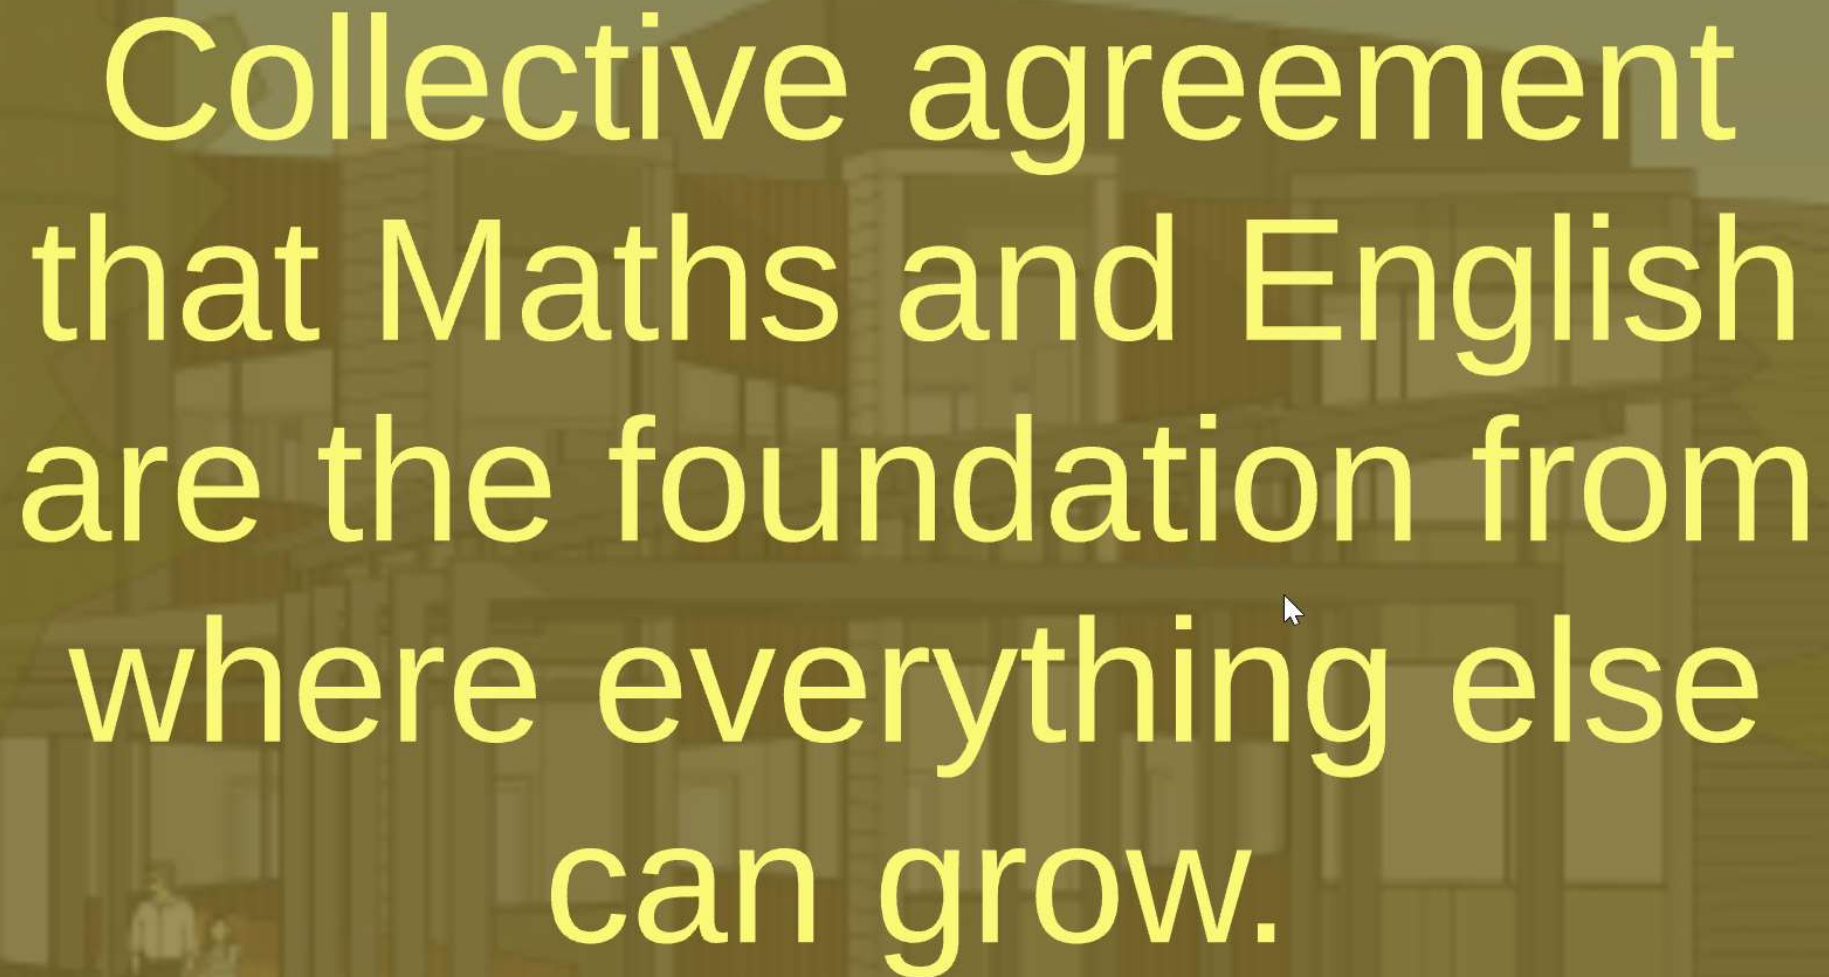

Typical ways of structuring curriculum were not going to enable us to achieve what we wanted

Goals

Influences

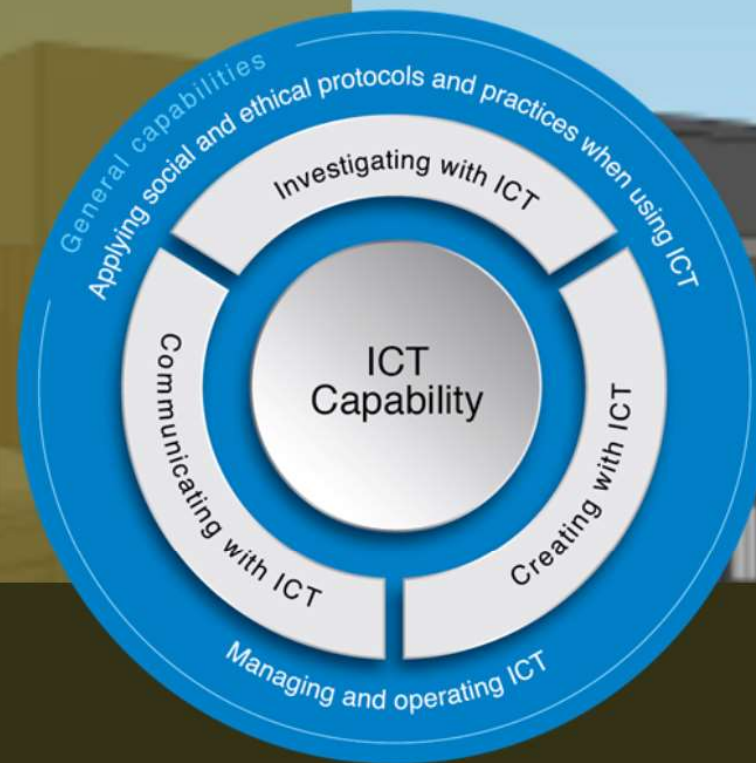

The background of the slide is a photograph of a school building, rendered with a green color overlay. The building has multiple windows and a modern architectural style. In the foreground, there are some trees and a few people walking, though they are less distinct due to the overlay and focus.

Collective agreement
that Maths and English
are the foundation from
where everything else
can grow.

Moving to a non-parity timetable for middle school has corrected time deficits in learning areas that were well short of the recommended Australian Curriculum guidelines and now align with agreed priorities

During 2021 building project at times we will be operational with 13 rooms less than this year. When creating our mock timetable, testing the proposed model (and making some compromises), I was surprised to see how efficient this new model is on facilities.

Despite subjects having different numbers of lessons, Year 11 and 12 remain fully blocked allowing for some composite classes, maintaining choice in senior school curriculum

Moving away from a fully blocked timetable structure allows for more manipulation of lesson placements, allowing us to better accommodate part-time staff and carefully place teaching teams for middle school interdisciplinary learning

The timetable as an improvement lever

This is achievable

and we have time

Thank You
